❖ PROFESSIONAL SUMMARY

Entry level Full Stack Developer skilled in MERN stack with experience building scalable web apps and REST APIs. Created AI based and data-driven projects with strong focus on performance, authentication, and user experience. Looking to contribute to real-world software development.

❖ TECHNICAL SKILLS

- **Languages**: JavaScript (ES6+), Java
- **Frontend**: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, REST APIs
- **Databases:** MongoDB, MySQL
- **Authentication & Concepts**: JWT, Middleware, CRUD Operations
- **Caching & Performance:** Redis
- **File Handling & Media:** Multer, Audio Streaming, ID3 Metadata Extraction
- **Tools & Platforms:** Git, GitHub, VS Code, Postman

❖ PROJECTS

Zindigo – Social Media Web Application (MERN Stack) | Link

- Developed a full-stack social media platform with secure user registration and login using JWT authentication.
- Implemented password hashing for secure credential storage and middleware based route protection.
- Built RESTful APIs for posts, profiles, and follow/unfollow functionality.
- Integrated image upload functionality and dynamic UI updates for follower/following relationships.
- Structured backend using MVC pattern and optimized API handling for scalable performance.

Moodify – Real-Time Emotion Aware Music Player | Link

- Built a full stack mood based music player using React, Node.js, Express, and MongoDB
- Implemented JWT authentication with Redis caching, reducing token validation time by ~40%
- Developed a custom audio player with real-time controls (play, seek, speed, volume)
- Added frontend + backend validation to prevent invalid data and improve user experience
- Designed a modern responsive UI with dynamic mood-based song fetching

MacFolio OS – Web Based macOS Style Portfolio | Link

- Built an interactive macOS-inspired web portfolio with draggable, resizable, and closable windows.
- Designed desktop-style UI with component-based architecture and state management.
- Developed a custom terminal emulator with command parsing logic.
- Integrated in-browser PDF resume viewer and music player with media controls.

❖ EXPERIENCE

Full Stack Developer Intern – TechnoHacks Solutions Pvt. Ltd (Remote) – Jan 2026

- Developed features for a task management and collaboration platform using MERN stack.
- Implemented user authentication and role based data handling for secure access control.
- Built and integrated RESTful APIs with MongoDB to support CRUD operations and efficient data management.

❖ EDUCATION

B.E Information Technology, Shree L.R. Tiwari College of Engineering, Mumbai University - CGPA: 7.3 (2026)	
Class XII (HSC) - 72% (Mar 2022)	Class X (SSC) - 74.67% (Mar 2020)

❖ CERTIFICATIONS

Full Stack Web Development – Apna College (2025)	Ethical Generative AI in Software – Simplilearn (2025)
UI/UX Design (Figma) – Physics Wallah (2025)	ML Basics – Vodafone Idea Foundation (2023)
